The Data Science: Bridging Principles and Practice program curriculum covers the following topics:

**Module 1** | Probabilistic Decision Making  
**Module 2** | Creating Sample Data  
**Module 3** | Testing Hypothesis  
**Module 4** | Extrapolating Information from Sample Data  
**Module 5** | Basic Regression Models  
**Module 6** | Advanced Regression Models  
**Module 7** | Forecasting Machine Learning  
**Module 8** | Building Effective Data Science Teams
